

Hosted Desktop

Your applications and data anywhere, anytime

Cloud Heroes' Hosted Desktop delivers an end-user experience identical to that of your business PC. The fundamental difference is that your applications, data and folders are stored and automatically backed up in our secure UK data centres and accessed online.

Access your office apps and data as if you were accessing your Local Area Network (LAN), irrespective of where or when you are working. Requiring just an Internet connection, you and your workforce are empowered by complete desktop and file accessibility whether on the office/home PC, on a tablet or smartphone.

Features

- **Windows 7 style desktop**
Familiar desktop experience.
- **Microsoft Office**
Always available on the latest version at no extra cost.
- **Hosted Exchange with Microsoft Outlook**
Premium business class email, hosted in the cloud.
- **Shared folders for multi-user file storage, access & sharing**
Easily replicate your business LAN in the cloud.
- **Secure & superfast network**
Our UK data centres are highly secure with multiple superfast connections for optimum performance.
- **Daily backup**
The peace of mind that your data is secure and backed up daily in UK data centres with a 10 day retention period.
- **Heroic support**
Full access to our UK support centre where our team of engineers will be on hand to help.

Benefits

- **Flexible working**
Access your apps and data anywhere, any time and on any device. All you need is an Internet connection, fixed or mobile.
- **Collaborative working**
Combine the IT infrastructure of multiple offices and allow co-workers to share data and applications remotely.
- **Business continuity & disaster recovery**
As the work environment can be accessed anywhere, fire, theft, flood or snow will not affect your staff gaining access to the business network. Your data is always backed up.
- **Full scalability**
Only pay for the infrastructure you need and simply add or remove users with 24 hours' notice.
- **Cost-effective IT**
Remove the traditional cycle of break & fix IT and the need for large capital expenditure. The hosted desktop is paid for monthly, improving cash flow and financial forecasting.

Our commitment to you

- **Direct telephone and email access to our UK based support team.**
- **Our infrastructure is monitored and maintained on a 24-7-365 basis.**
- **Our network is designed to be resilient, highly available and self-healing.**
- **All our operations conform to ISO 9001 standards.**
- **All our data centres are UK based and conform to ISO 27001 standards with the option for environments that support PCI-DSS compliance.**
