

Hosted Exchange

Business class email anywhere, anytime

Cloud Heroes' Hosted Exchange is a premium email collaboration platform that is implemented and fully supported by our team of engineers. This means you get the business class functionality of Microsoft Exchange without the investment and problems associated with servers, software, security and administration.

With Hosted Exchange your email will be available at any time, from any Internet connected device; giving you access to your email, contacts, calendars and tasks from anywhere in the world. Hosted in our secure UK data centres, the platform provides the mobility, efficiency and security that modern business demands.

Features

- **Increased storage**
Up to 50 GB mailboxes available.
- **Large attachment limit**
Send large files up to 60 MB.
- **Advanced spam & virus protection**
Optional end-to-end security with multiple layers of defence, powered by Barracuda Networks.
- **Easy administration**
Add & remove users or mailbox storage on demand. Only pay for what you need.
- **Secure & superfast network**
Our UK data centres are highly secure with multiple superfast connections for optimum performance.
- **Multi format accessibility**
Choose to access your email through Microsoft Outlook or browser based Web Access. Integrate with your smartphones or tablets.

Benefits

- **On the go email**
Access your account 24/7 from anywhere. On your office desktop, home laptop or remotely on your smartphone and tablet.
- **No investment**
By using the Cloud Heroes infrastructure to deliver your business class email platform, there is no need to invest in servers, software or additional security and admin measures.
- **Assisted set-up and migration**
Simplify the transition with the help of our experienced team who can migrate data to your new mailboxes and set you up.
- **Heroic support**
Full access to our UK support centre where our team of engineers will be on hand to help, so there's no need to engage external support.

Our commitment to you

- Direct telephone and email access to our UK based support team.
- Our infrastructure is monitored and maintained on a 24-7-365 basis.
- Our network is designed to be resilient, highly available and self-healing.
- All our operations conform to ISO 9001 standards.
- All our data centres are UK based and conform to ISO 27001 standards with the option for environments that support PCI-DSS compliance.
