

Dedicated server hosting

Fully dedicated for speed and security

When you need guaranteed performance for resource-hungry applications, a managed and dedicated server is the answer. Dedicated hosting comes with the extra benefit of customised design and support to meet your individual requirements with the option to reserve space in our secondary and/or tertiary data centres for guaranteed business continuity.

Dedicated, managed hosting is especially suited to database driven websites, e-commerce solutions and custom online applications. Our solutions are highly valued by customers who require guaranteed performance, uptime and security to ensure applications and services are available 24/7. Whatever your sector, we can ensure you benefit from the secure, fast and reliable hosting you need to run your business.

Features

- **Cost-effective**
Options available to use your own hardware for managed co-location.
- **Super fast**
10 GB fibre network throughout.
- **Protect your future**
Business continuity options available to ensure your business can keep operating despite unforeseen circumstances.
- **Highly secure**
All servers are firewall protected in our ultra secure data centres.
- **Fully accredited**
ISO 27001 and PCI-DSS accredited data centres.
- **Fully managed migration**
We provide a simple, hassle-free application and data migration to our hosting infrastructure.

Benefits

- **Flexible solutions**
Find the best solution for your business, whether it's fully managed or unmanaged, your own equipment or a hybrid server hosting solution.
