

# VPS hosting

## Full control over your server

Our customised VPS hosting solutions are especially suited to database driven websites, e-commerce solutions and custom online applications. We run our managed cloud hosting solutions on reliable high-performance servers, which deliver extreme performance with the added flexibility to scale on-demand to suit your exact requirements.

We design and build bespoke hosting solutions for professional developers and businesses that require customised hosting services for business-critical applications. We also offer a fully managed application and data migration service to provide a simple, hassle-free move to secure cloud hosting.

### Features

- **More power**  
Powerful Intel Xeon processors with un-contended, low-latency bandwidth and super fast disks.
- **Better performance**  
Resilient, high-speed RAID disk sub-systems.
- **Super fast**  
10 GB fibre network throughout.
- **Resilient network**  
Backed by a multi-data centre, resilient network.
- **State-of-the-art technology**  
Self-healing clustered server technology.
- **Fully accredited**  
ISO 27001 and PCI-DSS accredited data centres.

### Benefits

- **Flexible solutions**  
Find the best solution for your business, built to your specifications.
- **Added peace of mind**
